

## PayWeb™

SECURE ONLINE BILL PAYMENT AND PRESENTMENT

**Stuck waiting on the mail?**  
**You don't like it, and neither  
do your customers.**

PayWeb™ secure online bill payment provides your customers with the ability to get immediate credit for bills paid via the Internet using either a debit or credit card or an electronic check. By offering a range of online bill payment configurations, from a simple on-time payment option to a complete biller-branded EBPP site, PaymentVision can help you meet your electronic payment goals securely and with a minimum of integration. Just add a link to your current website and provide summary billing data or your current print and mail file and your customers will be able to make payments quickly, knowing they will arrive on time.

Combined with our flexible settlement options, quick onboarding process and excellent support, PayWeb is just another reason PaymentVision is *the clear choice in payments*.

### PayWeb™ Features

- **One-time Payments**
- **Recurring Payments**
- **Future Dated Payments**
- **Bill Presentment**
- **Credit/Debit Card**
- **Electronic Check**
- **Convenience Fee Support**

## Why Electronic Bill Presentation?

Consumers today are open to the greener option of receiving their bills electronically. PaymentVision can help you take advantage of this opportunity to reduce your mailing costs while you give your customers the ability to view and pay their bills online. By using the same data file generated for mailing, you can match the look of your online bills to your printed bills with 99.9% accuracy. Choose whether to give your customers online bills in addition to their regular bills or to suppress printing for bills presented online and realize additional savings.

### PayWeb EBPP options include:

- Easy access to archived documents for viewing and printing
- Email notification of bill availability
- eBilling using a PDF attachment
- Custom retention schedules
- Enterprise class security to protect your data

**Reduce your mailing costs and give your customers the ability to view and pay their bills online.**

## Security

PaymentVision understands that new threats emerge almost daily in the electronic payment world, and that achieving and managing compliance is more costly, more time consuming, and more resource intensive every year. PaymentVision is a PCI Level 1 compliant service provider, which means you know we take security seriously.

## PayWeb Benefits

- **Integration reduces misapplied payments, ensures authentication** – data exchange ensures payments are made to valid accounts only
- **Seamless customer experience** – carry your branding through to your payment site and allow access with a single click
- **Real-time payment notification** – online transaction information posts to your system immediately
- **PDF access to bills without additional Internet bandwidth** – hosted documents provide easy access without additional hardware costs
- **Stream-lined onboarding** – a dedicated Quality Services representative manages your implementation start to finish
- **Integrated print and mail service**
